HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

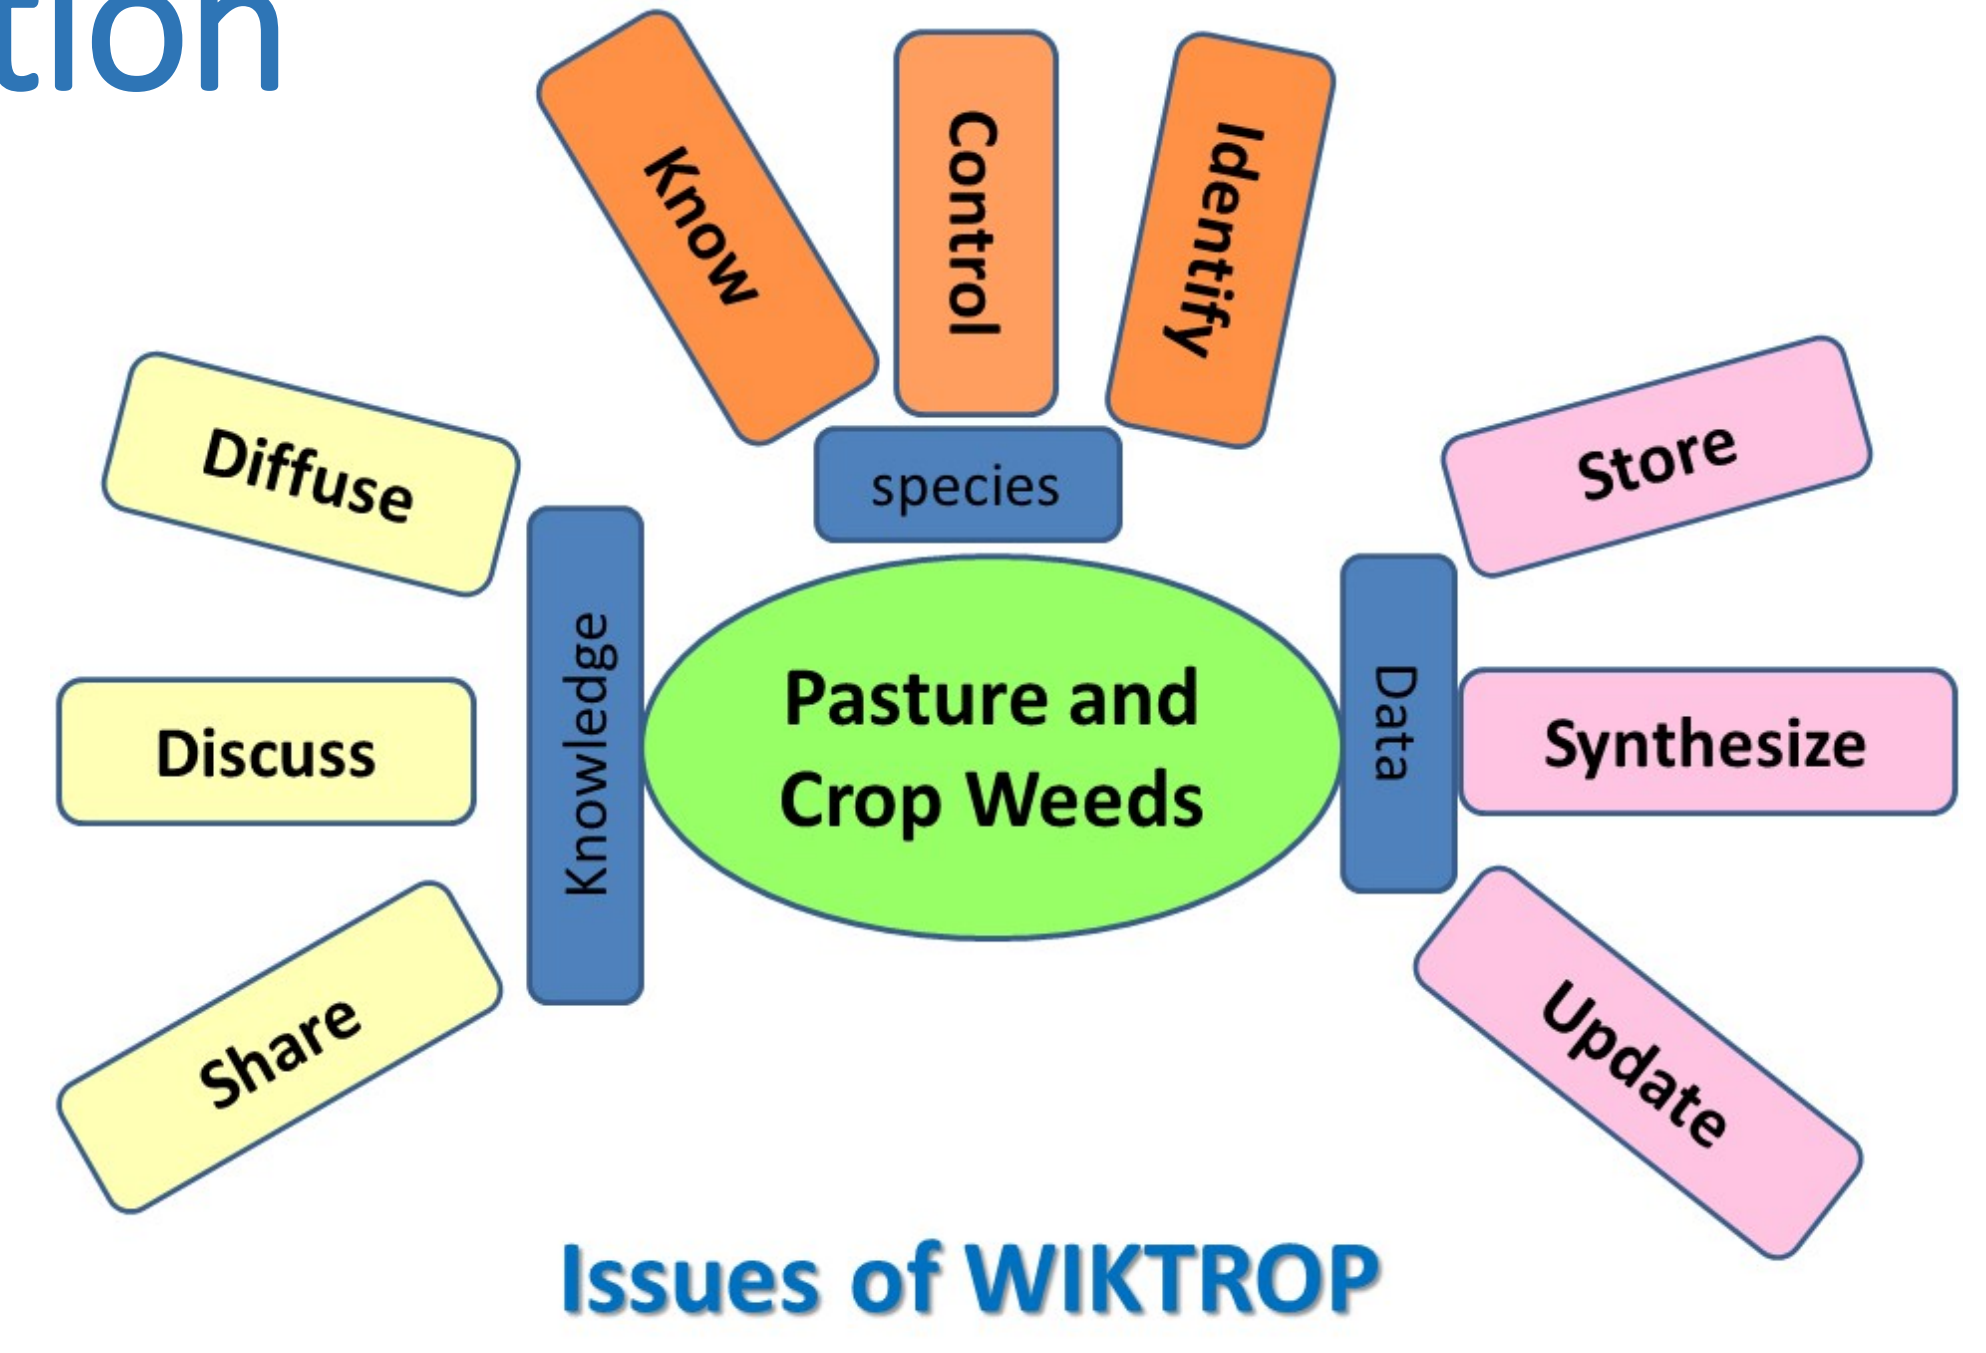

The WIKTROP collaborative portal: sharing and disseminating knowledge on weeds of tropical pastures for better management of grazing land degradation

Key messages

- Aggregation, capitalization and spread of knowledge on weeds and weed management in tropical grazing lands
- Sharing weed knowledge and weed problems of stakeholders
- Building a multi-actors network
- Building individual and institutional capacities to improve productivity and durability of grazing systems

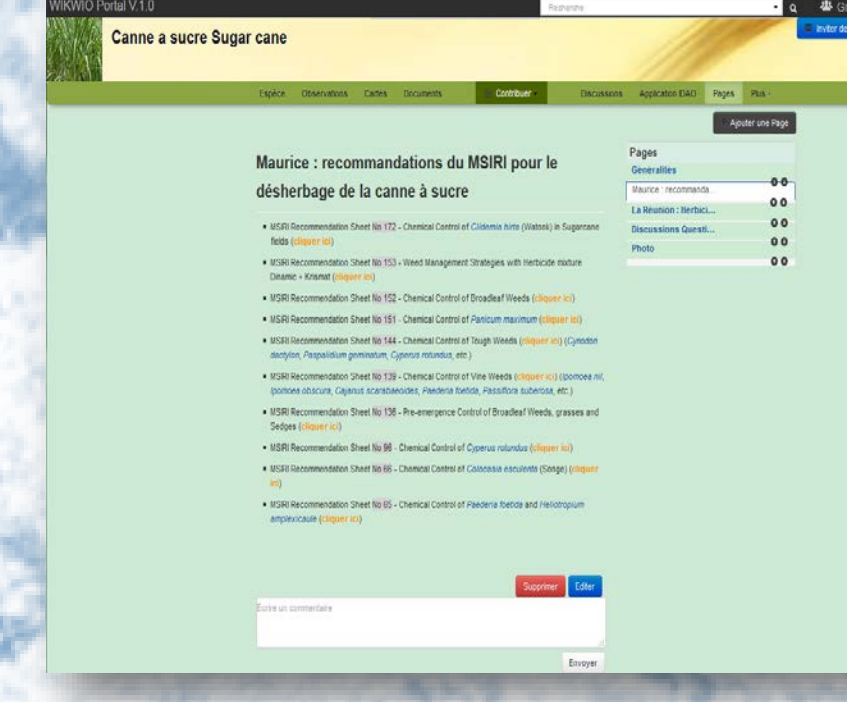

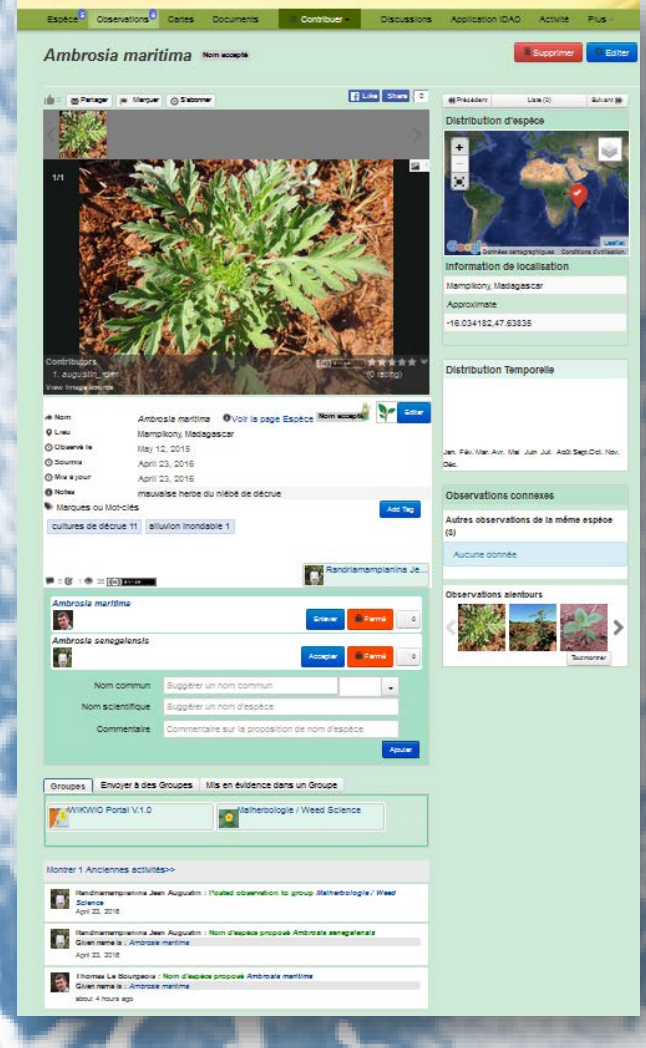

Results and benefits

11 898 Observations,
1331 species,
40190 images

116 Technical documents

11 Working groups

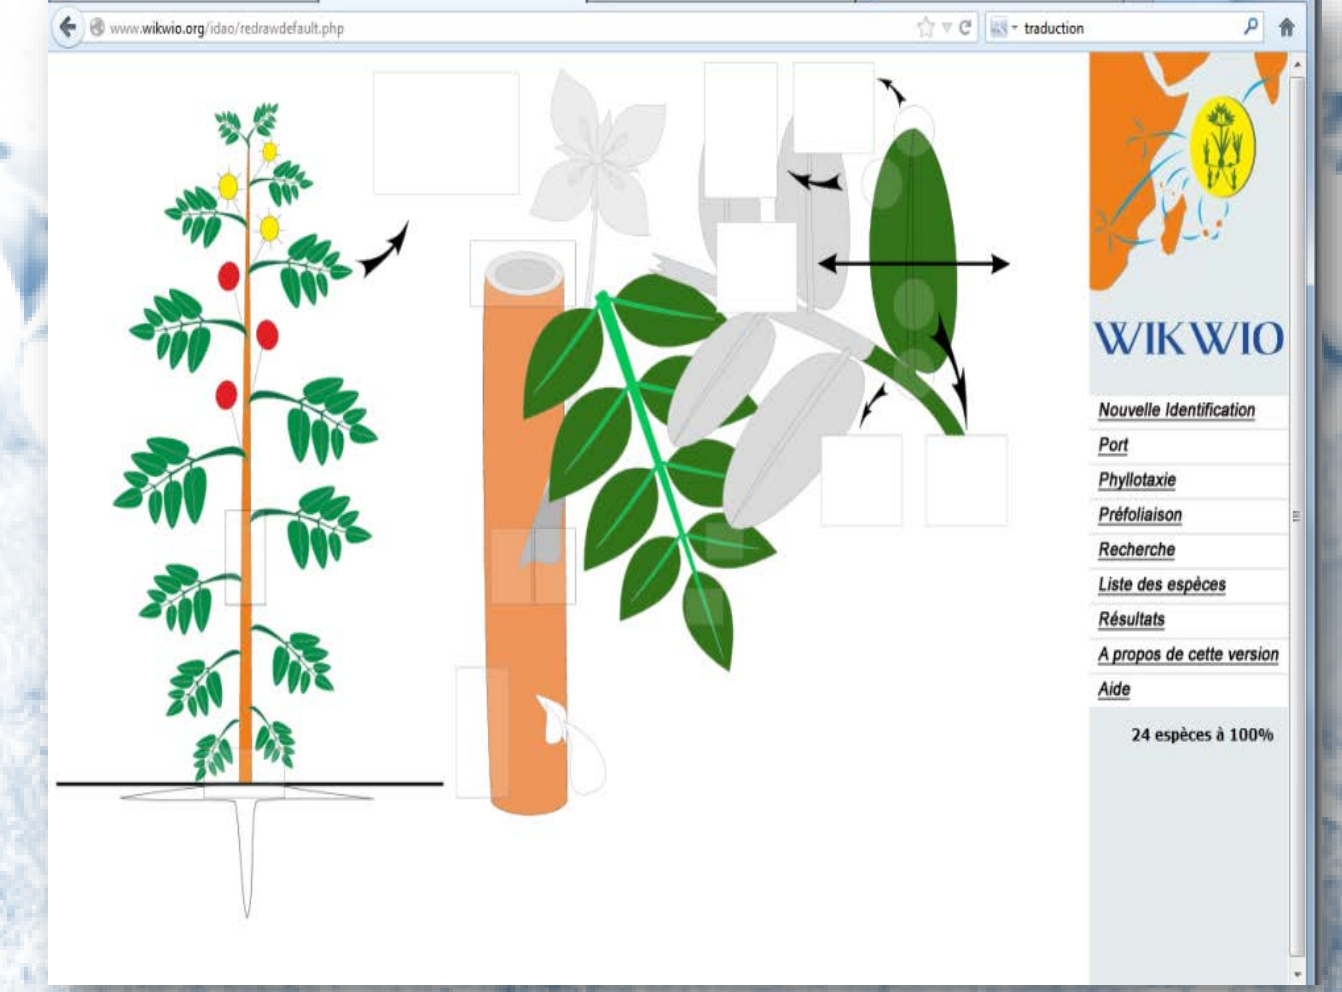

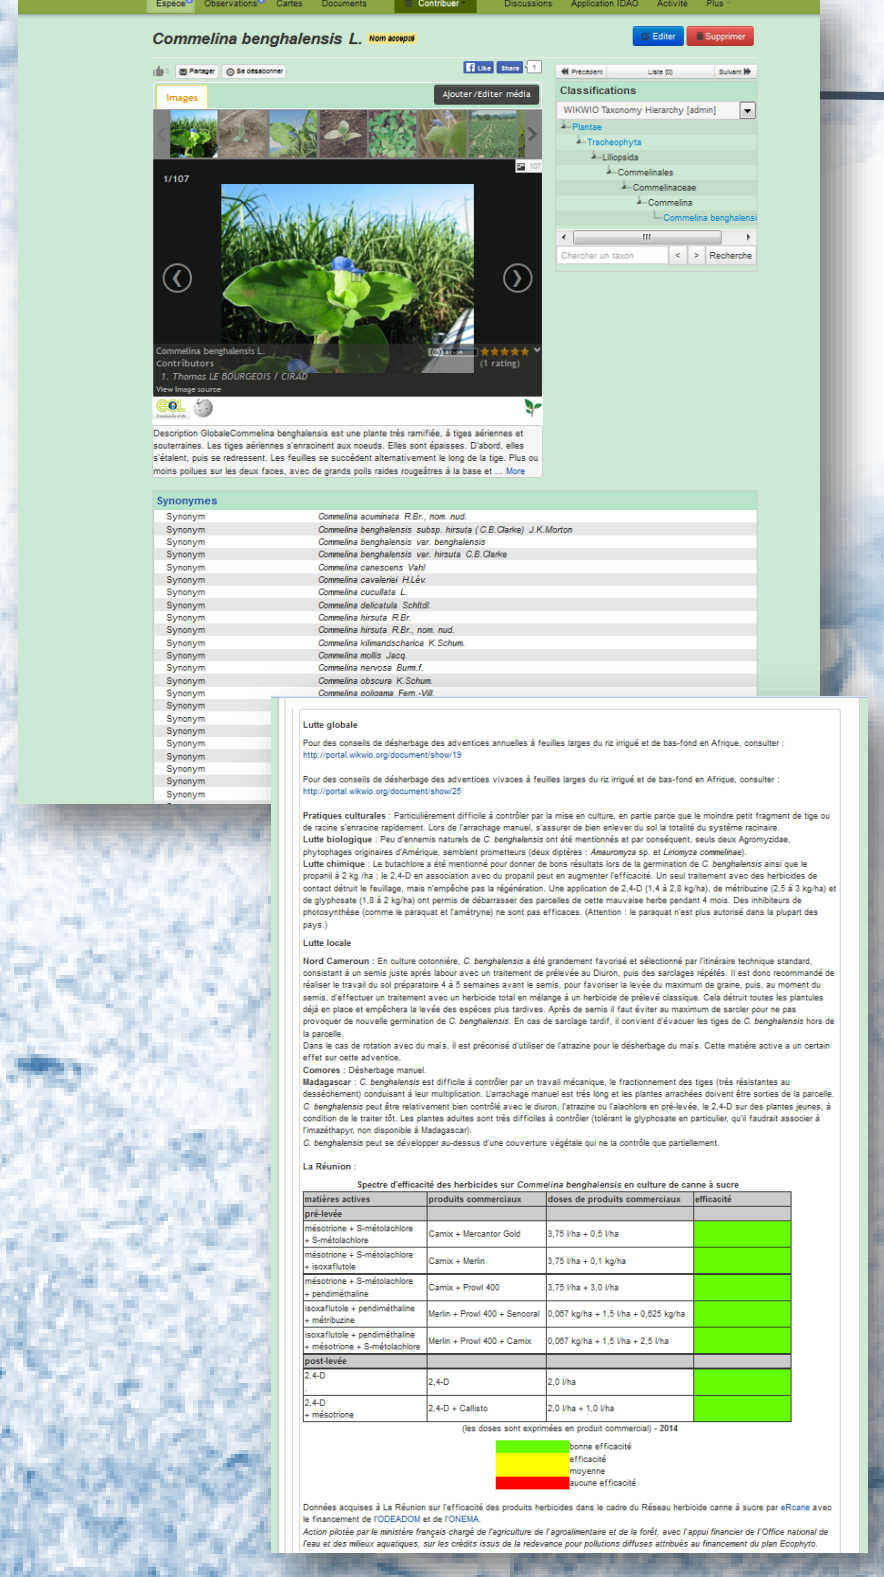

A network of 878 members
31450 visitors

Wiktrop participatory portal

609 Species pages

An identification tool
for 420 species

<http://portal.wiktrop.org>

2 mobile Apps

Constraints to manage

- Intellectual rights and traditional knowledge (Creative Commons licence, Nagoya protocol)
- Sharing knowledge and data (everyone gives little bit and everybody gets a lot)
- User contribution (needs regular supporting)
- ITC technology to adapt (multilingualism En/Fr, Web portal and mobile apps, etc.)

Aknowledgements

This portal has benefited from different financing such as the European Union (ACP Secretariat-Science and Technology Programme II, Programme de Développement Rural Régional de la Guyane 2014-2020). The coordinators of WIKTROP would like to thank all the members of the portal who contribute in its efficacy
